THE WILL TO SURVIVE.....	90

## **BOOK 2**

### **AIRLINE TRANSPORT PILOT AND AIRCRAFT TYPE RATING Practical Test Standards for HELICOPTER**

#### **General Information**

The Flight Standards Service of the Federal Aviation Administration (FAA) has developed this practical test standard (PTS) book to be used by examiners when conducting airline transport pilot and aircraft type

rating practical tests (knowledge of the equipment and flight tasks) in helicopters. Instructors are expected to use this book when preparing applicants for practical tests. Applicants should refer to these standards during their training.

Information considered directive in nature is described in this practical test standard in terms such as “shall” and “must” indicating the actions are mandatory. Guidance information is described in terms such as “should” and “may” indicating the actions are desirable or permissive but not mandatory.
