Boombustology: Spotting Financial Bubbles Before They Burst

Vikram Mansharamani

Boombustology: Spotting Financial Bubbles Before They Burst Vikram Mansharamani
A multi-disciplinary framework through which to spot financial bubbles before they burst.

Based on a popular undergraduate seminar, entitled Financial Booms & Busts, taught by the author at Yale University, *Boombustology* presents a multi-disciplinary framework for identifying unsustainable booms and forthcoming busts.

The magnitude of our recent financial crisis mandates a firm understanding of this phenomenon before the next crisis occurs. *Boombustology* provides an in-depth look at several major booms and busts and offers a solid framework for thinking about future occurrences.

- Examines why booms and busts are not random and can therefore be identified
- Focuses upon various theoretical and disciplinary lenses useful in the study of booms and busts
- Contains a framework for thinking about and identifying forthcoming financial bubbles including several tell-tale indicators of a forthcoming bust.
- Illustrates the framework in action by evaluating China as a potential bubble in the making.

If you want to make better decisions in today's turbulent investment environment, understanding the dynamics of booms and busts is the best place the start. *Boombustology* can help you achieve this elusive goal.

Vikram Mansharamani is a Lecturer at Yale University and a global equity investor.
