An elevator that can take you into space. Exotic materials that can clean the environment. Tiny particles that can cure cancer. A facility that can re-create temperatures inside the Sun. Body armor that can react to being hit. A machine that can unlock the secrets of our universe. These are just some of the many incredible things happening in science, and there's more to come. Science is changing the world for the better, and giving the human race hope for the future. The only question is: do you want to be a part of it. This book is written for the average person. You don't need a science degree to understand what is going on. Whether you're in school, working or retired, you can always contribute to the advancement of science. The future awaits...

So what these publications have than the others?

#### **Ernestine Pagan:**

As a university student exactly feel bored to be able to reading. If their teacher expected them to go to the library as well as to make summary for some publication, they are complained. Just very little students that has reading's internal or real their pastime. They just do what the professor want, like asked to the library. They go to generally there but nothing reading significantly. Any students feel that reading through is not important, boring and can't see colorful pictures on there. Yeah, it is to be complicated. Book is very important for you. As we know that on this period, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country.
