Stephen Shore has had a significant influence on multiple generations of artists and photographers. Even for the youngest photographers working today, his work remains an ongoing and indisputable reference point.

*Stephen Shore: Survey* includes over 250 images that span Shore's impressive and productive career. The images range from 1969 to 2013, with series such as *Early Works*, *Amarillo*, *New York City*, *American Surfaces* and *Uncommon Places*, among others. *Stephen Shore: Survey* elucidates Shore's contributions, as well as the historiographical interpretations of his work that have influenced photographic culture over the past four decades. The narrative of the catalogue is conceptualized around three particularly revealing aspects of Shore's work, including his analysis of photographic and visual language, his topographical approach to the contemporary landscape and his significant use of color within a photographic context. The images are accompanied by an interview between David Company and Shore, as well as texts by Sandra S. Phillips, Marta Dahó and Horacio Fernández. Published for his first ever retrospective exhibition, this essential catalogue also features a complete bibliography and chronology.
