The Dawning of the Golden Age of Aquarius: (Redefining the Concepts of God, Man, and the Universe) Albert AMAO

We are at the threshold of the beginning of a transitional period from the Age of Pisces to the Age of Aquarius. What should we expect from this coming New Era? What are its signs? What is the fate of human spirituality? What will be the new concept of God and of religion? This book attempts to answer these questions based on well researched sources complemented and endorsed by cosmology, archeology, psychology, religion, Near East studies, and mythology among other scientific disciplines. The book also intends to clarify the confusion created by some Protestant religious leaders and sensationalistic writers who have misinterpreted the signs of the transitional period as the end of the world. The truth is that there is no such thing as the end of the world, but the end of one world, the Piscean Era, and the commencing of a new worldwide social order, a new chapter in human history called the Aquarian dispensation. The correct understanding of this fact is extremely vital for modern man, so he can be prepared to confront the upheavals that entail the shift of ages. The huge conspiracy propounded by false prophets and some New Age writers, whether overtly or covertly, feeds the fear and anxiety of ordinary people with unfounded apocalyptic propaganda. This book attempts to give the reader an accurate perspective regarding the planetary transformations that are taking place; it offers hope and inspiration as we approach the Golden Age.
