Buildings of Earth and Straw: Structural Design for Rammed Earth and Straw-Bale Architecture

Bruce King

Straw bale and rammed earth construction are enjoying a fantastic growth spurt in the United States and abroad. When interest turns to action, however, builders can encounter resistance from mainstream construction and lending communities unfamiliar with these materials. *Buildings of Earth and Straw* is written by structural engineer Bruce King, and provides technical data from an engineer's perspective. Information includes: special construction requirements of earth and straw; design capabilities and limitations of these materials; and most importantly, the documentation of testing that building officials often require.
