The only inexpensive and thorough chronicle of the development of letter forms from the point of view of the artist or typographer, *The History and Technique of Lettering* ranges from the earliest pictographs and hieroglyphics to the work of 20th-century designers. This comprehensive, well-illustrated volume offers readers a fascinatingly detailed historical overview as well as a practical course in lettering techniques. Subjects include early writing forms; Roman lettering; runes and medieval hands; the Carolingian minuscule and derivative types; humanistic writing and derivative fonts; the effects of the Industrial Revolution on lettering; and much more. Hand-lettered illustrations accompany the text, along with comments on the stylistic and historic position of each style.
