Big Magic: A Full Summary!

Big Magic is a book written by Elizabeth Gilbert. It is a book about motivation, where Gilbert, by using anecdotes and quotes tries to bring her readers closer to her message.

The main thing the author talks about is creativity. Creativity is an important factor if we want to experience true success in our life. Thus the author explains how using creativity in a right way can lead to a successful and prosperous life, because, as the author states, when we activate our creative nature we also open door to the Big Magic.

In her book the author also notes that fear is the most dangerous enemy of creativity, because fear impedes people from discovering what they are the best at and thus they never find out where their true potential lies. But just as fear can prevent people from discovering their potential and to use their creativity, persistence in creativity can help a lot, because persistence will help to people to continue against all odds and when there is not real 'chance' for success.

Big Magic is another self-help literature, but written in a unique way. Because of that and because of the message that sends to its readers, this book is well worth reading as it may open some new paths along your way in your life.
