The notes and comments have been appropriately updated. The opening chapter continues to include a section of cases designed to hone a student's skill in close case analysis. The book in its entirety introduces students to a broad spectrum of material traditionally covered in a first-year property course. A voluminous teacher's manual accompanies the book with briefs of every principal case and extensive notes designed to aid the teacher in advancing classroom discussion on nearly every note in the casebook. For the first time, the accompanying teacher's manual includes additional problems and other materials that teachers can elect to use in class designed to develop professional skills in addition to case analysis.
