Brain and tumour. Two of the worst words to go together in one sentence. This book follows the personal journey of a mother whose eighteen year old son faces this diagnosis. The story journeys through the medical events, the grief, the discovery of what an Acquired Brain Injury means and the aftermath of this event that shattered their lives. This is a very honest account covering a seven year period of a family's life when facing some tough, ongoing hardships. Woven throughout are lessons and insights of faith in God that give hope and perseverance in difficult times.
