Ruth Lesser, Lesley Milroy

## **Linguistics and Aphasia: Psycholinguistic and Pragmatic Aspects of Intervention (Language In Social Life) Ruth Lesser, Lesley Milroy**

*Linguistics and Aphasia* is a major study of recent developments in applying psycholinguistics and pragmatics to the study of acquired language disorders (aphasia) and their remediation.

Psycholinguistic analyses of aphasia interpret disorders in terms of damaged modules and processes within what was once a normal language system. These analyses have progressed to the point that they now routinely provide a model-based rationale for planning patient therapy. Through a series of case studies, the authors show how the psycholinguistic analysis of aphasia can be assessed for its effectiveness in clinical practice.

Pragmatic approaches to the study of aphasia are of more recent origin. Ruth Lesser and Lesley Milroy evaluate their considerable significance to the study of aphasia and their relevance to practical issues of diagnosis and treatment. Controversial analysis, in particular, offers a fruitful and productive framework within which to assess the functional adequacy of the language used by aphasic speakers in everyday contexts.
