180 pages. Discover the Math & Reading Flashcard Series. Flash cards with attitude and critters. The author, Robert Stanek, collected sight word lists, wall word lists, and vocabulary lists while his four children attended elementary school. The Sight Words Plus system incorporates the many words on those many lists, gathered over many years. Knowing sight words and wall words is essential for reading fluency and classroom learning.

Complete with 161 words, organized into 7 different word sets for easier learning. Sight words are words that are used frequently but may be difficult to sound out or may be confused with other words. Because children often have trouble reading sight words phonetically, they can benefit instead from the whole word approach in which they memorize each word.

Wall words are words that teachers commonly emphasize in the classroom to improve reading and learning skills. Although many of these words are used in the classroom, they may not be used regularly at home and children can benefit greatly from memorizing each word.

With repetition and context clues, your child should quickly master these important words.
