The Jewish World around the New Testament Richard Bauckham

Renowned biblical scholar Richard Bauckham believes that the New Testament texts cannot be adequately understood without careful attention to their Judaic and Second Temple roots. This book contains twenty-four studies that shed essential light on the religious and biblical-interpretive matrix from which early Christianity emerged. Bauckham discusses the "parting of the ways" between early Judaism and early Christianity and the relevance of early Jewish literature for the study of the New Testament. He also explores specific aspects or texts of early Christianity by relating them to their early Jewish context. Originally published by Mohr Siebeck, this book is now available as an affordable North American paperback edition.
