*Improve student outcomes with data-driven coaching*

*Student-Centered Coaching* is grounded on the premise that school-based coaching can be designed to directly impact student learning. Shifting the focus from “fixing” teachers to collaborating with them in designing instruction that targets for student achievement makes coaching more respectful and results-based. The book also underscores the critical role of the principal in fostering a culture of learning. Each chapter includes:

- A model for designing and implementing student-centered coaching
- Data-driven coaching tools and techniques focused on student learning
- Specific practices for leading a student-centered coaching effort
