The Survival Guide: What to do in a Biological, Chemical, or Nuclear Emergency

Dr. Angelo Acquista

The Survival Guide: What to do in a Biological, Chemical, or Nuclear Emergency Dr. Angelo Acquista
From the medical director of the New York City Mayor's Office of Emergency Management, here, in straightforward language and with easy-to-understand instructions, is a step-by-step guide to protecting yourself and your family in large-scale emergencies.

The Survival Guide provides expert critical information about the most likely biological, chemical, and nuclear threats—and explains the basic steps to take before, during, and after a terrorist attack or other emergency situation.

Easy to use: standardized chapter format full of quick tips and information

Complete explanations: of different biological, chemical, and nuclear weapons

Early identification pointers: including symptoms, emergency response, testing and diagnosis, treatment, special precautions, preparation tips, and much more

Special sections: care for children, pregnant women, and even pets

Provides: resource sections with contact numbers and information, and instructions on what to do in the event of an attack, including advice on prevention as well as containment

Assesses: crucial information for disaster planning, including recommendations for action based on proximity to an attack and precautionary suggestions regarding mass transportation
