Intro to Archaeology & Geology Parent Lesson Planner Dr John Morris, David Down

This *Introduction to Archaeology and Geology Curriculum Guide* contains materials for use with *The Archaeology Book* and *The Geology Book* in the Wonders of Creation series.

Features: Each suggested weekly schedule has three easy-to-manage lessons which combine reading, worksheets, and vocabulary-building opportunities including an expanded glossary for each book. Designed to allow your student to be independent, materials in this resource are divided by section so you can remove quizzes, tests, and answer keys before beginning the coursework. As always, you are encouraged to adjust the schedule and materials as you need to in order to best work within your educational program.

Workflow: Students will read the pages in their book and then complete each section of the study guide worksheets. Tests are given at regular intervals with space to record each grade. Younger students may be given the option of taking open book tests.

Lesson Scheduling: Space is given for assignment dates. There is flexibility in scheduling. For example, the parent may opt for a M-W schedule rather than a M, W, F schedule. Each week listed has five days but due to vacations the school work week may not be M-F. Please adapt the days to your school schedule. As the student completes each assignment, he/she should put an "X" in the box.
