Math Phonics (TM) : Division Marilyn B. Hein

What is Math Phonics? It's a specially designed program for teaching the mastery of basic math concepts and facts.

The name, Math Phonics, is used because the rules, patterns and memory techniques developed for this program are similar to those used in language arts. Most of the rules are short and easy to learn. Children are taught to look for patterns and use them. Repetition and drill are the keys to success.

In just minutes a day, your students can master the division facts 1 through 10. These unique, easy-to-use lesson plans with worksheets, take-home pages and other support materials are all you need for a fast, fun and effective program.

This is an outstanding resource for introducing children to division or for providing alternative teaching techniques for students experiencing problems learning division facts.

Math Phonics is a registered trademark of Teaching & Learning Company, Inc.
