Specialization and Complementation of Humoral Immune Responses to Infection (Current Topics in Microbiology and Immunology)

Specialization and Complementation of Humoral Immune Responses to Infection (Current Topics in Microbiology and Immunology)

The importance of specific antibodies for the clearance of and long-term resistance to many infectious pathogens has long been appreciated. In the last five years, data from these areas of research has coalesced, resulting in the emergence of a new and more complete understanding of how antibody-mediated resistance to pathogens is elaborated. This volume will highlight this new perspective on antibody responses to infection and convey its practical implications.
